

Mr. Mohammad Shalalkeh  
National Director  
SOS Children's Villages Palestine

Dear Mr. Shalalkeh,

**Subject: Services of the SOS Reintegration Unit (FS2)**

Studies and evaluations conducted by our CP social workers show that an enormous number of family defragmentation is due to the socio-economic conditions of their families and the incapacity of these families to provide for the basic needs of their children, and eventually having the children hosted in residential institutions.

Within the close and constant cooperation between MoSD's CP social workers and SOS's reintegration team in mutually following up children and their original families, and in light of the fact that the quality child protections services of SOS's FS2 covers all Palestinian districts; we hereby request that SOS provides CP services to the mentioned group of children within their original families without having to move them and consequently depriving them from living within their natural families.

Sincerely,

**Dr. Ahmad Majdalani**  
Minister  
Ministry of Social Development
